「Offshore Technology Conference 2025」への出展募集について

拝啓 時下ますますご清栄のこととお喜び申し上げます。

当会の事業運営につきましては、平素から格別のご高配を賜り厚く御礼を申し上げます。

さて、当会は、日本財団助成事業として、「Offshore Technology Conference 2025」(以下、OTC2025)に参加いたします。同展示会は、世界各国のエネルギー関係者が一堂に集う世界最大規模のイベントであり、展示会のみでなく様々なカンファレンスが同時開催され、エネルギー転換を含むオフショア分野の最新情報を収集できる場になっています。

当会は、オフショア事業参入促進を目的とし、同展示会に 2013 年から継続して当会会員企業及び日系石油関連企業と出展しており、他国産油国と同様に 2023 年から公式にナショナルパビリオン「日本パビリオン」として、人通りの多い会場中央部に
出展場所を設けることとしております。

詳細については添付の「OTC2025 出展案内」等をご確認いただき、お申込みいただける場合は、同封の出展申込書に必要事項をご記入のうえ、来る **11月22日(金)迄**に Email にて当会担当者へご連絡いただくようお願い申し上げます。

会 期 : 2025年5月5日(月)～5月8日(木)
開催場所 : アメリカ合衆国 ヒューストン
メインホール : 2555

一般社団法人 日本船用工業会

 **Japan Ship Machinery and Equipment Association**

[はじめに]

本年第57回目を迎える当カンファレンスは、世界各国より1,300以上の企業が毎年一同に集い、オフショア向け機器製造企業やエンジニアリング企業等の技術や製品をPRする世界最大のオフショアに特化した展示会で、開期中はエネルギーに関する問題や取り組みに加え、最新技術等に関するカンファレンスが数多く開催されており、情報収集の場としても非常に有意義です。この機会に是非ともご出展をご検討頂きますようご案内申し上げます。

[展示会概要]

1. 名 称：Offshore Technology Conference 2025
2. 開催期間：2025年5月5日(月)～5月8日(木)
3. 開催場所：アメリカ合衆国 ヒューストン
4. 会 場：NRG Park
5. 主 催：Offshore Technology Conference

[当工業会の参加概要]

1. 参加機関：一般社団法人 日本船用工業会
2. 助成機関：公益財団法人 日本財団
3. 指導機関：国土交通省及び公益財団法人 日本財団
4. 参加面積：メインホール：300㎡ (60x50)
5. 出展形態：日本のナショナルスタンドとして、DeepStar (日本財団 海洋開発技術コンソーシアム) 特設コーナーを設け、日本パビリオンを形成 (予定)
6. ブース番号：メインホール：2555
※OTC2025では、アリーナホールでの展示会開催は予定されておりません。

[スタンドデザイン及びレイアウト等について]

当会の出展面積範囲内でのスタンドデザイン及びレイアウト等は、後日ご案内する出展者会議において、出展企業間で協議し決定致します。

1. 当会確保スペースは、メインホール ブースNo. 2555の**300㎡** (60x50) です。
2. OTC2025での募集は、原則「15㎡」、「9㎡」、「カタログ展示」のみとします。
15㎡以上をご希望の場合は、ご相談ください。
3. 全出展企業の企業名やPR情報を訪問者に広くPRする予定としており、映像素材を拝借させて頂く必要がある場合、随時ご相談させていただきます。

[展示物の輸送について]

貨物輸送料金は各社にご負担いただきます。

輸送会社の選択は自由となりますが、展示会場内の作業は当会指定の輸送会社となります。
詳細はお問い合わせください。

[出展料金について]

LEADING THE GLOBAL ENERGY EVOLUTION

2024

Offshore Technology Conference

- POST EVENT REPORT -

6-9 May 2024 >> NRG Park >> Houston, Texas, USA

THE FUTURE OF ENERGY IS AT OTC

OTC 2024 Post Event Report

The Future of Energy is at OTC

Themed, **“Leading the Global Energy Evolution,”** the 55th annual Offshore Technology Conference (OTC) served as a central hub for the brightest minds in the world to share ideas and innovations, discuss the latest trends and topics, and build a consensus around the most pressing issues facing the offshore energy sector. From 6–9 May, attendees witnessed first-hand the groundbreaking technologies responsible for reshaping the industry.

SUMMARY >>

The 2024 Offshore Technology Conference attracted more than **30,000 attendees from 107 countries** reinforcing OTC's status as the premiere global energy and innovation conference amid rising energy demand. This growing international presence highlights OTC's expanding influence and importance within the offshore energy sector, highlighted further by the presence of **205 media and press**.

A breathtaking exhibit hall floor attracted **14 international pavilions and almost 1,300 exhibitors across 257,350+ sq ft** to make connections and showcase their products and services with global energy leaders and experts.

This year's conference was reflective of the changes in the industry and has attracted a unique subset of subject matter experts who are dedicated to accelerating the development and transfer of interdisciplinary offshore technologies.

MEDIA BEHAVIOR INSIGHTS

1 HIGH FOCUS ON TECHNOLOGICAL ADVANCES

There was a strong emphasis on emerging technologies, and their potential impact on the offshore industry, at this year's conference, indicating media interest in innovation-driven narratives.

2 GEOPOLITICAL AND INVESTMENT DISCUSSIONS

Coverage heavily featured geopolitical topics and investment opportunities in developing regions like Nigeria and Guyana, suggesting media focus on economic implications and strategic developments in the energy sector.

3 DECARBONIZATION

Topics related to production, decarbonization and CCS were prominent at this year's OTC, indicating a growing media interest in this area.

Media Coverage

KEY TOPICS >>

AUTONOMOUS DRILLING

SLB's prediction that autonomous drilling will become mainstream before self-driving cars was a recurrent theme, covered by several outlets including:

Around the World Series | CONFERENCE HIGHLIGHTS >>

Monday through Wednesday at OTC 2024, attendees discovered the latest international developments and new areas of opportunities from the following country presentations. **Subjects covered were pertinent, timely, and important to the offshore energy sector.**

1 CANADA'S ENERGY INVESTMENT OUTLOOK

2 SHAPING THE FUTURE: ISRAELI INNOVATION FOR OFFSHORE TECHNOLOGIES: SECURITY, SOFTWARE AND MONITORING

3 GUYANA'S EMERGENCE AS A REGIONAL ENERGY POWERHOUSE AND ITS EXPANSION INTO THE GLOBAL OIL MARKET

4 BRAZIL AS THE WORLD HIGH SPOT OF CLEAN AND DECARBONIZED ENERGY MATRIX

5 FRENCH SUPPLY CHAIN FOR WORLDWIDE ENERGY SECURITY DELIVERY

6 PROSPECTS FOR THE DEVELOPMENT OF OIL AND GAS EXPLORATION SECTOR IN UKRAINE

7 AZERBAIJAN'S ENERGY NEEDS AND THE ROAD TO COP 29

8 AFRICA ENERGY FORUM: THE FUTURE OF ENERGY TRANSFORMATION IN AFRICA - CLEAN ENERGY AND BUSINESS SUSTAINABILITY

9 ITALY'S STRATEGIES FOR A SUSTAINABLE ENERGY TRANSITION

Energy4me Student & Teacher Workshops | CONFERENCE HIGHLIGHTS >>

The OTC teacher and student STEM workshops provided a unique opportunity for participants to gain insights into the complex and dynamic world of offshore energy in a free, one-day workshop.

70 STUDENTS

FROM 3 HOUSTON-AREA HIGH SCHOOLS

50 TEACHERS

FROM 39 HOUSTON-AREA SCHOOLS

ALL PARTICIPATED AND GAINED PRACTICAL EXPERIENCE IN STEM ACTIVITIES DEVELOPED TO DEMONSTRATE THE SCIENCE BEHIND OFFSHORE ENERGY.

Daily Events

DAY 1 >> MONDAY, 6 MAY

- > Dr. Scott Tinker, Director Emeritus of the Bureau of Economic Geology at UT Austin **kicked off OTC 2024** with a keynote session on the environmental footprints and economic impacts of energy. The session explored the trade-offs of varying energy resources and the challenge facing the human race as we work to increase human flourishing while also protecting the environment.
- > Congratulations to the Spotlight on New Technology Award winners, announced today live from the exhibit floor! This year's **15 honorees are recognized** for reshaping the offshore energy sector through their innovations and developments. This year's award-winning technologies include, an **autonomous inspection drone**, mapping services and a ratchet anti-rotation mechanism.
- > SLB's Vision of the Future Offshore Energy Market executive dialogue session, featuring Abdellah Merad, EVP of Core Services & Equipment, captured the minds of individuals in the room as he discussed the realities of autonomous drilling and the significance of digitization in increasing performance efficiencies and **driving emissions reductions**.

DAY 2 >> TUESDAY, 7 MAY

- > Chevron's Chris Powers delivered key insights into the company's low carbon developments during an Executive Dialogue session, emphasizing it would "take all solutions to help navigate the world energy evolution and meet the world's continued demand for energy.... the world is always on an energy evolution." In a separate panel session on Monday, project managers for the company's Anchor Deepwater Project discussed the progress the drillship has made to **reach oil by mid-2024**.
- > Audiences during the Marine Mining and Understanding the Narrative panel session were engaged as speakers elaborated on marine mining's evolving role in the energy landscape. Samantha Smith, Director at Blue Globe Solutions, **highlighted that the world** would need to build a city the size of New York City every 11 weeks to meet growing urbanization and population growth by the end of the century. Marine Mining was recognized as a key tool to power increased demand because of the resources' multi-mineral properties and low environmental impact.
- > It was a full house at this afternoon's **Africa Energy Forum**. Energy ministers from Nigeria, Ghana and Namibia highlighted the policies African governments and oil companies are adopting for sustainable oil exploration. The Around the World session also explored the participation of women in the industry, key regulations and policies to enable exploration and ESG.

DAY 3 >> WEDNESDAY, 8 MAY

- > OTC's inaugural Young Professionals Day successfully launched today. Tailored to provide learning and networking opportunities for the next generation of energy professionals, the program featured **panel sessions** with experts and executives from academia and the private sector. Key organizations participating in the event to discuss career progression and the role of AI and Machine Learning included, Rice University, ExxonMobil, Chevron, Baker Hughes, Tenaris and Shell. In addition, attendees joined an exclusive tour of the exhibit floor and networking happy hour.
- > Italy is taking a **comprehensive approach** to a sustainable energy transition. Industry experts and bilateral trade groups convened for the Around the World panel to emphasize the need for increased investments to power the future of energy. Carbon capture and renewable growth were highlighted as two key areas critical to Italy's achievement of emissions reductions goals.
- > With successful oil projects underway in Guyana, ExxonMobil's Guyana President, Alistair Routledge and Guyana's Energy Minister, Vickram Bharrat **sat down to discuss the country's emergence** as a regional powerhouse with Routledge stating, "we are very encouraged with the work that has been going on with all the technical teams and concepts, and maturing and understanding of that resource both from a reservoir static to a dynamic performance perspective."

DAY 4 >> THURSDAY, 9 MAY

- > Artificial intelligence and advanced analytics are **driving major efficiencies** and project transformations throughout the offshore industry. Industry experts discussed the role of data integration in enabling advanced machine learning and Rate of Penetration (ROP) modeling and prediction during the Technical Session. Speakers explored the use of artificial intelligence and advanced analytics as revolutionary tools in the industry to utilize for drill bit selection and design.
- > From reducing safety incidents to saving worker lives, today's panel on Digitization and Improved Safety in Oil And Gas focused on the use of digitization and data analytics to improve safety of oil and gas operators. Among some of those innovations were Wearable Technology, **Video Analytics**, AI and Automatization. The session featured executive speakers from SLB, **ALTAVE**, Dersalis, NoviDigiTech, and ProDirectional.
- > Teachers and high school students participated in OTC's annual **Energy4me STEM workshops**. As part of its commitment to develop the next generation of offshore leaders, and with the generous sponsorship of Aramco and ExxonMobil, OTC hosted students and teachers for a day of hands-on learning and training. Highlights from the workshops included presentations by energy executives, guided tour of the exhibit floor and hands-on science lessons.

Young Professionals Event

OTC 2024 brought the return of a dedicated Young Professionals Event. The future of the offshore energy sector is bright, and the goal of this event is to bring together the early career professionals that will one day lead the offshore sector. The event included a panel discussion and Q&A with energy and human resources professionals, a keynote about AI, and the next generation of the workforce.

Offshore Wind Thread | NEW AT OTC 2024 >>

This year, OTC presented a dedicated three-day thread to discuss energy developments in offshore wind. This thread featured energy professionals from the public and private sectors, who discussed the advancement of offshore wind farms, the political and regulatory support for the technology and future opportunities and challenges the industry will face as it continues its growth.

Podcast Row

Podcast row made an exciting return to OTC, with the Oil and Gas Network exclusively recording live from the exhibition floor. The network, which hosts 15 different podcast shows, recording episodes at OTC, highlight the technologies and innovations on display while spotlighting the experts and professionals attending the conference.
